Sweat, moisture, and bacteria can not only cause unpleasant odors but also pose health risks to members and staff. With WINTERSTEIGER Dry & Protect's drying and disinfection systems, you can create a clean and hygienic training environment for both members and staff. Our drying cabinets, panels, and air purifiers use unique Sterex plasma technology to remove odors and effectively eliminate bacteria and viruses.

Benefits

Quick, gentle, and efficient drying
Drying of clothing, shoes, and even equipment like boxing gloves

Hygienic and odor-neutral air quality
Neutralization of 99.9% of all viruses and bacteria in the air and training equipment without chemical agents

Longer lifespan of equipment
Less cleaning and washing saves time and resources

Easy installation and operation
Drying and air purification systems can be easily installed in any fitness club
